

EP Township Recreational Facilities Are Ready for Rental!

The Weimann Building & Sports Complex, plus Edgewater Park's other active recreational parks – Memorial and Kite – are now prepared for rental to individuals, groups and organizations. The Public Works Department has prepared the sports fields, and Weimann Building, with a capacity for 160 people, has its kitchen ready to use for functions. Rentals will use the same authorizing application as used under the revised Public Function Permit for 2021.

Woodlake, Dinoia and Roosevelt Parks are just passive parks with no playing fields, so they are not part of the rental program.

According to the Township's Public Function Permit Application and License Ordinance No. 2021-7, "A person, partnership, voluntary association, corporation, or other organization seeking to obtain a parade, public function, or similar activity permit shall file an application with the Township Clerk, not less than 10 days before a Township Committee Meeting prior to the event of which the parade, public function, or similar activity is proposed. The Township Administrator is authorized to establish rules, regulations, and procedures for the processing of parade, public function, or similar activity permit applications.

Necessary information needed to apply, such as names of responsible adults to be present during the activity, proof of general liability insurance, and rules/regulations, is outlined in the application, which people can download from the Township website: http://edgewaterpark-nj.com/filestorage/173/360/449/757/Public_Function_Permit_2021.pdf.
