My Million Dollar Mom
Inspired by the true story

Film Screening and Dementia Awareness

Based on a true story, a loving mother is diagnosed with Alzheimer's. Her devoted son steps forward to care for her. Her needs are so great he must decide whether to pursue his final chance of his lifelong dream of high political office, something she wanted so much for him, or give it all up to fulfill a promise he made to her long ago that he would care for her and be by her side at the end of her life.

Although Alzheimer's is the challenge that is faced by mother and son, this is more of a story of how two people care for one another and the ups and downs of life. Mr. Schriftman and his mother were involved in so many things. The scenes the audience will experience include politics, marathon running, dancing, Jewish holidays, dogs, cats, kids, excitement, disappointments and triumphs.

This film will help audiences recognize that people have value no matter how old, feeble or damaged they may be. We hope to change the attitudes about Alzheimer's by demonstrating that deep inside those afflicted with this disease can still be the same caring people they always were and that they are capable of helping others at their time of need.
