GOALS

The Bicycle Patrol Unit will have the goal of providing our residents and visitors with a new form of *Police Protection and Visibility* within the residential and business areas of our Township. This program embraces the idea of Community Policing by making officers more approachable and accessible to the citizens of our community.

In addition to the development of better community relations with the public, the use of bicycles will enhance the mobility of officers and adds a silent, tactical, approach to patrol. Officers will also be able to concentrate their patrols in areas that a stealthy response is more practical and enables them to address other quality of life issues that vehicle patrol officers are sometimes unable to address or observe.

Bicycle Patrols will provide additional patrol coverage in areas that are targeted as needing enhanced patrol and in areas where patrol vehicles are unable to easily access.
