BURLINGTON COUNTY

COMPLETE NETWORK PLAN

Burlington County

Complete Network Plan

The Burlington County Complete Network Plan is an effort to make transportation safer for **all road users**, with a focus on adding and improving off-road paths and trails in the County.

The plan will:

- Identify gaps in walking, biking, trail, and transit access.
- Evaluate safety needs for vulnerable road users.
- Build on Burlington County's existing and planned trail network.
- Support DVRPC Regional Vision Zero goals.
- Recommend priority projects, policies, and implementation strategies.

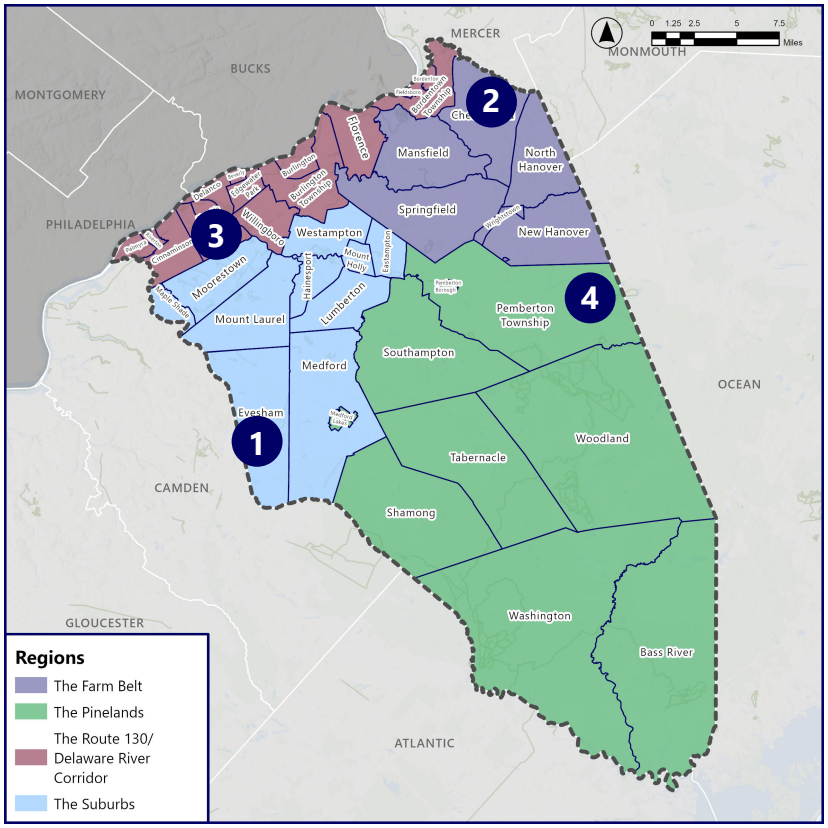

We Need Your Participation !

Attend one or more Public Information Center sessions (PIC) to learn more about the work to date and provide input on the next steps of the plan.

There will be one PIC in each region of the County.

If you cannot make it in-person, join the virtual PIC session on December 9th.
