

Sen. Singleton Adds \$250K to Congressman Conaway's \$1 Million+ for Silver Park West Pump Station!

On Monday, August 17, 2026, seniors in Silver Park West gathered near their retention pond to welcome Senator Troy Singleton's donation for their Pump Station, along with Congressman Herb Conaway's \$1,015,000 federal grant.

Senator Singleton declared "I was proud to secure \$250,000 in the FY27 State budget, which will help build a permanent pump station at the Silver Park West community in Edgewater Park. This critical project will help protect residents from dangerous flooding, because when the area experiences heavy rain, the community's basin can flood."

"This funding now supplements the \$1,015,000 in federal funding Congressman Herb Conaway already secured for this much needed project. Undoubtedly this funding will ensure that our seniors feel safe and secure in their homes."

"Assemblyman Balvir Singh and I present this ceremonial check to residents and officials today, and we thank Mayor Sarah Cannon Moye, Police Chief John Harris, and members of Township Committee for joining us... and for their continued commitment to the Silver Park West community. And thank you to all the senior

residents who shared their input on why this project is so critically needed, some of whom have joined us today!”

(L-R) Assemblyman Balvir Singh, Twp. Committee Member Bill Belgard, EP Mayor Sarah Canon-Moye, Senator Troy Singleton, Twp. Committee Member Juanita Scott, Congressman Herb Conaway, MD., Deputy Mayor Member Stephen Malecki, and EP Chief of Police John Harris.
